**Maranello (Italy), November 7<sup>th</sup>, 2016** - Ferrari N.V. (NYSE/MTA: RACE) (“Ferrari” or the “Company”) today announces its consolidated preliminary results<sup>(4)</sup> for the third quarter and nine months ended September 30, 2016.

## Shipments

For the nine months ended				Shipments <sup>(5)</sup> (units)	For the three months ended			
September 30,					September 30,			
2016	2015	Change			2016	2015	Change	
2,762	2,413	349	14%	EMEA	859	815	44	5%
1,998	1,969	29	1%	Americas	701	682	19	3%
496	418	78	19%	Greater China	180	157	23	15%

<b>6,074</b>	<b>5,643</b>	<b>431</b>	<b>8%</b>	<b>Total Shipments</b>	<b>1,978</b>	<b>1,949</b>	<b>29</b>	<b>1%</b>

Shipments totaled 1,978 units in Q3 2016, up 29 units from previous year, a solid performance on top of an outstanding Q3 2015 which grew by 21% vs. Q3 2014. This achievement was driven by a 15% increase in sales of our 12 cylinder models (V12), led by the success of the F12tdf, first deliveries of the GTC4Lusso and the newly launched LaFerrari Aperta. Shipments of the 8 cylinder models (V8) were substantially in line with the prior year.

The EMEA<sup>(5)</sup>, Americas<sup>(5)</sup> and Greater China<sup>(5)</sup> regions experienced a sound year-on-year growth with shipments increasing respectively by +5%, +3% and +15%, whereas Rest of APAC<sup>(5)</sup> decreased by 57 units affected by logistic delays caused by one of our shipment carriers.

<sup>4</sup>These results have been prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board and IFRS as endorsed by the European Union

<sup>5</sup>EMEA includes: Italy, UK, Germany, Switzerland, France, Middle East (includes the United Arab Emirates, Saudi Arabia, Bahrain, Lebanon, Qatar, Oman and Kuwait) and Rest of EMEA (includes Africa and the other European markets not separately identified); Americas includes: United States of America, Canada, Mexico, the Caribbean and Central and South America; Greater China includes: China, Hong Kong and Taiwan; Rest of APAC mainly includes: Japan, Australia, Singapore, Indonesia and South Korea.

## Total net revenues

For the nine months ended				(Euro million)	For the three months ended			
September 30,					September 30,			
2016	2015	Change			2016	2015	Change	
1,607	1,545	62	4%	Cars and spare parts <sup>(6)</sup>	537	537	-	0%
225	172	53	31%	Engines <sup>(7)</sup>	97	51	46	92%

<b>2,269</b>	<b>2,110</b>	<b>159</b>	<b>8%</b>	<b>Total net revenues</b>	<b>783</b>	<b>723</b>	<b>60</b>	<b>8%</b>

Net revenues for Q3 2016 were Euro 783 million, an increase of Euro 60 million or 8.3% (+7.9% at constant currencies) from Q3 2015. Revenues in Cars and spare parts<sup>(6)</sup> (Euro 537 million) were in line with prior year led by higher volumes of the 488 GTB, the 488 Spider, the F12tdf, first deliveries of the newly launched models GTC4Lusso and LaFerrari Aperta, along with higher contribution from personalization. This was offset by LaFerrari, that finished its limited series run, and logistic delays caused by one of our shipment carriers in the Rest of APAC region. Engines<sup>(7)</sup> revenues (Euro 97 million, +92%) showed a significant increase mainly due to strong sales to Maserati and higher rental revenues from other Formula 1 Teams. Sponsorship, commercial and brand<sup>(8)</sup> (Euro 125 million, +14%) was up mostly due to better 2015 championship ranking compared to 2014, higher sponsorship revenues and positive contribution from brand related activities.

<sup>6</sup>Includes the net revenues generated from shipments of our cars, including any personalization revenue generated on these cars and sales of spare parts

<sup>7</sup>Includes the net revenues generated from the sale of engines to Maserati for use in their cars, and the revenues generated from the rental of engines to other Formula 1 racing teams

<sup>8</sup>Includes the net revenues earned by our Formula 1 racing team through sponsorship agreements and our share of the Formula 1 World Championship commercial revenues and net revenues generated through the Ferrari brand, including merchandising, licensing and royalty income

<sup>9</sup>Primarily includes interest income generated by the Ferrari Financial Services group and net revenues from the management of the Mugello racetrack

## Adjusted EBITDA<sup>(1)</sup> and Adjusted EBIT<sup>(1)</sup>

For the nine months ended				(Euro million)	For the three months ended			
September 30,					September 30,			
2016	2015	Change			2016	2015	Change	
629	567	62	11%	Adjusted EBITDA <sup>(1)</sup>	234	213	21	10%
27.8%	26.9%	+90bps		Adjusted EBITDA margin	30.0%	29.5%	+50bps	
449	364	85	23%	Adjusted EBIT <sup>(1)</sup>	172	140	32	23%
19.8%	17.3%	+250bps		Adjusted EBIT margin	22.0%	19.4%	+260bps	

Adjusted EBIT<sup>(1)</sup> was Euro 172 million, up Euro 32 million (+23%) from Q3 2015 as a result of higher volumes (Euro 15 million), thanks to the 488 family, the F12tdf and first deliveries of the GTC4Lusso as well as a positive margin contribution from our personalization programs, partially offset by the 458 family and the FF phase-out. Mix was negatively impacted (Euro -12 million) by LaFerrari, that finished its limited series run, partially offset by the newly launched LaFerrari Aperta and higher sales of V12 vs. V8 mainly thanks to the F12tdf. Research and development costs and industrial costs were in line with prior year. SG&A increased (Euro -3 million) mostly due to new model launches and costs incurred in connection with the new directly operated stores. FX, excluding hedges, had a negative impact (Euro -3 million) on transaction exchange rate mainly due to GBP partially offset by JPY. Continuous positive contribution from other supporting activities (Euro 9 million).

Tax rate dropped to 29.8% in Q3 2016 from 33.8% in Q3 2015, mainly due to the Italian Government's decision to reduce the nominal tax rate to 24% from 27.5% by 2017.

As a result of the items described above, net profit for Q3 2016 was Euro 113 million, up Euro 19 million (+20%).

Industrial free cash flow<sup>(1)</sup> for the three months ended September 30, 2016 was Euro 178 million, primarily driven by a strong increase in cash flow from operating activities, including a positive change from advances on the newly launched LaFerrari Aperta and increased tax liabilities, partially offset by capex and negative working capital due to seasonality.

Q3 2015 industrial free cash flow<sup>(1)</sup> included Euro 37 million one-time cash inflow from the sale of

investment properties to Maserati. Q4 2016 will bear the second 2016 tax advance and full year 2015 tax balance payments for a total of approx. Euro 200 million.

Net industrial debt<sup>(1)</sup> at September 30, 2016 was Euro 585 million, better than Euro 763 million at June 30, 2016.

In September the Company decided to partially prepay Euro 300 million out of the Euro 1,500 million term loan provided by a syndicate of banks in 2015.

### **The GTC4Lusso T**

On September 29<sup>th</sup>, 2016 Ferrari unveiled at the Mondial de l'Automobile in Paris the GTC4Lusso T, the first full four-seater of the Prancing Horse powered by the latest evolution of the V8 turbo engine family that received the "International Engine of the Year Award 2016". The GTC4Lusso T maintains the same innovative take on the shooting brake coupé as the V12 version and it is aimed at drivers seeking a car that is sporty and versatile, as well as perfect for driving on a daily basis.

### **70 unique liveries to celebrate the 70<sup>th</sup> anniversary**

As part of the program of special initiatives to celebrate in 2017 the 70<sup>th</sup> anniversary of its foundation, Ferrari has used its Tailor Made experience to design 70 liveries inspired by the most iconic models from its history, each created just once for every of the five cars in the current range. The 350 unique vehicles are distinguished by the commemorative logo of the 70<sup>th</sup> anniversary along with an ID plate with the name of the model that inspired it.

**Subsequent Events**

On October 20<sup>th</sup>, 2016, Ferrari Financial Services Inc., indirectly wholly owned subsidiary of Ferrari N.V., performed a revolving securitization program for funding of up to USD 200 million by pledging leasing financial receivables in the United States of America as collateral. The notes bear interest at a rate per annum equal to the aggregate of LIBOR plus a margin of 70 basis points.

Proceeds from the first sale of financial receivables were USD 175 million and were used to repay in October unsecured funding of USD 150 million.

Today, Ferrari and FCA Bank finalized agreement to provide financial services in Europe. FCA Bank has acquired a majority stake in Ferrari Financial Services GmbH for a total purchase price of Euro 18.6 million upon consummation of the share purchase agreement entered into by the parties earlier this year. As a result of the funding being directly provided by FCA Bank, which will be the consolidating entity, Ferrari N.V. will receive Euro 432 million.

## **About Ferrari**

## **Forward Looking Statements**

This document, and in particular the section entitled "2016 Outlook", contains forward-looking statements. These statements may include terms such as "may", "will", "expect", "could", "should", "intend", "estimate", "anticipate", "believe", "remain", "on track", "design", "target", "objective", "goal", "forecast", "projection", "outlook", "prospects", "plan", or similar terms. Forward-looking statements are not guarantees of future performance. Rather, they are based on the Group's current expectations and projections about future events and, by their nature, are subject to inherent risks and uncertainties. They relate to events and depend on circumstances that may or may not occur or exist in the future and, as such, undue reliance should not be placed on them. Actual results may differ materially from those expressed in such statements as a result of a variety of factors, including: the Group's ability to preserve and enhance the value of the Ferrari brand; the success of Ferrari's Formula 1 racing team and the expenses the Group incurs for Formula 1 activities; the Group's ability to keep up with advances in high performance car technology and to make appealing designs for its new models; the Group's low volume strategy; the ability of Maserati, the Group's engine customer, to sell its planned volume of cars; changes in client preferences and automotive trends; changes in the general economic environment and changes in demand for luxury goods, including high performance luxury cars, which is highly volatile; the impact of increasingly stringent fuel economy, emission and safety standards; the Group's ability to successfully carry out its growth strategy and, particularly, the Group's ability to grow its presence in emerging market countries; competition in the luxury performance automobile industry; reliance upon a number of key members of executive management and employees; the performance of the Group's dealer network on which the Group depend for sales and services; increases in costs, disruptions of supply or shortages of components and raw materials; disruptions at the Group's manufacturing facilities in Maranello and Modena; the Group's ability to provide or arrange for adequate access to financing for its dealers and clients; the performance of the Group's licensees for Ferrari-branded products; the Group's ability to protect its intellectual property rights and to avoid infringing on the intellectual property rights of others; product recalls, liability claims and product warranties; exchange rate fluctuations, interest rate changes, credit risk and other market risks; potential conflicts of interest due to director and officer overlaps with the Group's largest shareholders and other factors discussed elsewhere in this document.

Any forward-looking statements contained in this document speak only as of the date of this document and the Company does not undertake any obligation to update or revise publicly forward-looking statements. Further information concerning the Group and its businesses, including factors that could materially affect the Company's financial results, is included in the Company's reports and filings with the U.S. Securities and Exchange Commission, the AFM and CONSOB.

**Non-GAAP financial measures**

Operations are monitored through the use of various Non-GAAP financial measures that may not be comparable to other similarly titled measures of other companies.

Accordingly, investors and analysts should exercise appropriate caution in comparing these supplemental financial measures to similarly titled financial measures reported by other companies.

We believe that these supplemental financial measures provide comparable measures of financial performance which then facilitate management's ability to identify operational trends, as well as make decisions regarding future spending, resource allocations and other operational decisions.

Certain totals in the tables included in this document may not add due to rounding.

**EBITDA** is defined as net profit before income tax expense, net financial expenses/(income) and depreciation and amortization.

**Adjusted EBITDA** is defined as EBITDA as adjusted for income and costs, which are significant in nature, but expected to occur infrequently.
